Help your child hit new heights in test-taking with Spectrum Test Practice for grade 5. Aligned to current state standards, this workbook gets kids ready using practice tests, online exercises, tips, examples, and answer sheets genuine to the real math and language arts assessments. By providing an authentic test experience, you’re helping your child build the skills and confidence to exceed assessment expectations. Spectrum Test Practice provides everything kids need to take on testing-including online practice pages, customized by state and grade-level.

Support Spanish acquisition using Skills for Success: Spanish for grades 6–12. Students can use the activities in this 128-page book on their own or in addition to any Spanish program. The exercises are presented in a range of formats that help students acquire everyday Spanish vocabulary. The book includes vocabulary lists, reproducible storybooks, a pronunciation key, and an answer key.

Build students' math fluency with More Minute Math Drills: Multiplication and Division for grades 3–5. This 128-page book includes customizable drill pages for differentiating instruction, number searches, and color-by-number and matching activities. The book supports NCTM standards and includes reproducible award certificates and answer keys.

Engage students in grades 2–4 and build their confidence using Graphing: Hidden Pictures. This 64-page resource teaches essential graphing skills through hands-on activities using popular second- through fourth-grade themes. Students work to reveal hidden pictures while practicing reading order, fine-motor skills, attention to detail, and concentration. They take pride in the finished product and look forward to the next lesson. The lessons are ideal for independent practice and homework. This book aligns with state, national, and Canadian provincial standards.

A top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Help your student form a solid understanding of the Spanish language. Building on the basics, this book covers common phrases, functional vocabulary, conjugation of verbs, basic grammar, and sentence structure. Over 100 pages of reproducible activities get your students started on the path to speaking and writing Spanish. The activities provided offer fun and varied exercises to practice concepts and vocabulary. Students learn to tell time, formulate sentences,conjugate verbs, pose and answer questions, and make comparisons; all while learning about Spanish-speaking culture.

Differentiated Reading for Comprehension is designed to provide high-interest, nonfiction reading success for all readers. This 64-page book focuses on sixth grade reading skills defined by the Common Core State Standards. Each of 15 stories is presented separately for the below-level, on-level, and advanced students, followed by a series of comprehension questions. Grade six covers such standards as quoting a text to explain an answer or draw inferences, identifying and explaining an author’s reasons and evidence, and analyzing the structure of a text. This new series will allow teachers to present the same content to below-level, on-level, and advanced students with these leveled nonfiction stories. It includes multiple-choice, fill-in-the-blank, and true/false questions; short-answer writing practice; and comprehension questions. Students stay interested, build confidence, and discover that reading can be fun! The reading passages will be separated into sections with titles such as Extreme Places, Amazing People, Wild Animals, Strange and Unexplained, Fascinating Machines, and Amazing Kids.

This book covers common phonics topics such as blends, digraphs, vowel combinations, prefixes, and suffixes. Included are worksheets, games, and activities.

Physical Science for grades 5 to 12 is designed to aid in the review and practice of physical science topics. Physical Science covers topics such as scientific measurement, force and energy, matter, atoms and elements, magnetism, and electricity. The book includes realistic diagrams and engaging activities to support practice in all areas of physical science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Biology for grades 6 to 12 is designed to aid in the review and practice of biology topics such as matter and atoms, cells, classifying animals, genetics, plant and animal structures, human body systems, and ecological relationships. The book includes realistic diagrams and engaging activities to support practice in all areas of biology. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Differentiated Reading for Comprehension is designed to provide high-interest, nonfiction reading success for all readers. This 64-page book focuses on third grade reading skills defined by the Common Core State Standards. Each of 15 stories is presented separately for the below-level, on-level, and advanced students, followed by a series of comprehension questions. Grade three covers such standards as how key details support the main idea, understanding the relationships and connections between parts of a text, and developing an understanding point of view. This new series will allow teachers to present the same content to below-level, on-level, and advanced students with these leveled nonfiction stories. It includes multiple-choice, fill-in-the-blank, and true/false questions; short-answer writing practice; and comprehension questions. Students stay interested, build confidence, and discover that reading can be fun! The reading passages will be separated into sections with titles such as Extreme Places, Amazing People, Wild Animals, Strange and Unexplained, Fascinating Machines, and Amazing Kids.
