The Economic System of India
Before the last decade, the 1990's, India was probably on the short list of almost every economist outside of India of the countries with the worst economic systems. India had and probably still has a parasitical class of politicians and bureaucrats that micromanage the economy in the interests of their class.

THE ECONOMIC HISTORY AND THE ECONOMY OF INDIA

India's model offered a non-capitalist (and yet non-communist) pathway to development and social democracy to the global south. By the 1970s, India was seen by many as an example of everything gone wrong. A "scarcity mindset" and complex bureaucratic processes that stifled entrepreneurship had resulted in decades of slow economic growth.

India has a mixed economy. Half of India's workers rely on agriculture, the signature of a traditional economy. One-third of its workers are employed by the services industry, which contributes two-thirds of India's output. The productivity of this segment is made possible by India's shift toward a market economy. Since the 1990s, India has deregulated several industries.
